

Range Finder 10075

Electronic Distance Measuring Tool for indoor or outdoor use

Used by : Real Estate Agents/Brokers, Contractors/Builders, Interior Designers, Remodelers, Estimators, Do-It-Yourselfers -- Anyone Who Takes Interior or Room Measurements

Forget the cumbersome tape measure! Use the Range Finder to measure interior distances with the press of a button!

Just aim & shoot to get an instant digital readout. Measure with 99.5% accuracy up to 18 m

What it does

- **Take Interior Room Measurements at the Speed of Sound!** : It uses a narrow ultrasonic beam to measure at the speed of sound; this permits convenient measuring even in areas where furniture or fixtures are present.
- **Quickly Measure Lengths, Square Meterage or Volume** : Just point and shoot the length of a room. Or, record your length measurement, measure the width and multiply L x W for the room's area.
- **Fast & Accurate** : Measure from 0.5 m up to 18 m indoors with 99.5% accuracy.
- **Simple to Use** : Just aim and press a button & you've got a measurement.

The Range Finder 10075 helps you:

- Take Instant Measurements
- Measure Accurately & Easily
- Save Time, Improve Productivity
- Impress Your Clients

How the Range Finder Works : The receiver sends narrow beams of sound waves which "bounce" off solid objects back to the receiver. A microprocessor converts elapsed time into distance measurement and displays it. The built in calculator adds linear measurements and computes areas and volumes.

Features

- High visibility laser to show where you are aiming (for reference only)
- Measures from 30 cm to 18 metres
- Computes areas and volumes
- Adds linear measurements, area, volumes
- Measures in Ft/In, M/Cm, decimal Ft. and Yds.
- Tracking and Validate Modes
- Can measure from top or bottom of unit
- 7 memories with easy recall
- Automatic internal temperature compensation
- Auto shut-off 7 minutes after last use
- Multi-lingual Detailed instruction booklet
- Multi-lingual Quick Reference instruction label
- Low Battery Warning
- Requires One 9 Volt Battery(not included)
- Accuracy 99.5% +/- 1cm
- Protective Pouch with Belt Loop
- One Year Warranty

Product Specifications

Accuracy : Single Unit Mode : 99.5%
 Accuracies possible when :
 Temperature : 0 - 30 deg C
 Relative Humidity : 30 to 70%
 Altitude : -0.1 to 0.1 km
 Wind Speed : Still Air

Resolution : 1 cm

Ultrasonic Frequency : 40 kHz without Target
Current Consumption : 8 - 13mA (approx 50 hrs)
Operating Temperature : 0 to 38 deg C
Auto Shut Off : 4 min. after last reading
Size : 143 x 70 x 25 mm
Weight : 184 g with Battery
Battery : 9 volt (alkaline recommended)
