

Digital Distance Measuring Wheel Measuremeter 5500E

The new digital **Measuremeter**, combines advanced and patented technology for the first time to a measuring wheel at costs previously unimaginable. Using the latest electronic design technology, the 5500E is an electronic distance measuring wheel with more features than ever before.

A precision electronic encoder which has gold plated contacts for durability, converts the rotation of the shaft into a fast and accurate measurement of distance. The on board microprocessor has the ability to apply mathematical calculations to the reading, making it capable of converting metres to yards or feet and inches at the push of a button.

Extra rugged construction for use over agricultural land and other rough terrain including sports course management.

With many unique features the Measuremeter should be the first choice for all your distance measuring

Registered design

Features

Easy To Read Display

- Large LCD display
- Crystal clear in direct sunlight
- Backlight for low light conditions

Rugged Construction

- Weather and moisture proof
- Minimum 5 year battery life
- **3 year Guarantee**

Time Saving Features

- Two measuring modes; trip and total
- Pushbutton reset
- Pointer indicating start
- Electronic brake
- Telescopic handle
- Mud scraper
- Retractable Stand

Telescopic handle with
3 height settings.
Folds away for
easy carriage

Mud scraper and brake.

Lever reset to zero.

Specifications

Range :	10 000 metres
Accuracy :	+/- 1%
Wheel Circumference :	1000 mm
Product Dimensions :	310.5(w) x 1015(h) x 22.02 mm(d).
Weight :	+/- 1800 g
Display :	Large LCD display 64(w) x 24.55 mm(h).
LCD Digit :	6 LCD digits, each 6.5(w) x 13 mm(h).
Backlight :	High brightness LED.
Battery Life :	Minimum 5 year battery life.
Part No.:	5500E

Precision Electronic Encoder
