

Adhesion

Cross Hatch

- Elcometer 107, 1540, 1542 Cross Hatch Cutters
- Instant assessment of the quality of the bond to the substrate
- Ideal for thin, thick or tough coatings on flat or curved surfaces
- Conforms to ISO, ASTM, DIN, BS, EN & NFT

Pull Off

- Elcometer 106, 106/6, 1910, 1940 PAT
- Easy to operate and fully portable
- Provides a numerical value for adhesion
- Various ranges up to 120 MPa
- Conforms to ISO and other International Standards

Climatic Condition Testing

Climate Condition Monitor

- Elcometer 319 Dew Meter – Standard & Top models
- Air temperature, Relative Humidity (RH), Surface Temperature, Dewpoint Temperature
- DeltaT-difference between dewpoint & surface temp
- Accessories include NEW ElcoMaster Software
- Conforms to ISO, BS, NACE.RP

Hygro Thermometer

- Low cost M20, 8706, Elcometer 116 Whirling Hygrometer, 6700 Thermo Hygrograph
- Air Temperature, Relative Humidity (RH), Surface Temperature, Dewpoint Temperature, Wet Bulb
- DeltaT - difference betw. dewpoint & surface temp
- Accessories include Software

Infra Red Temperature

- Elcometer 214, 214L, 8889, ST672 High Temp
- Non contact temperature gauges with laser pointer
- Range : -40 to 520°C for the most popular 8889
- Accuracy : +/-2%, Resolution : 0.1 deg
- Also available high temp up to 3000 deg C

Temperature

- Elcometer 113, 212, 213, 213-2, 519, 8852
- Portable Digital & Analog Temperature Gauges
- Air, Surface, Liquid Temperature
- Range : -200 to 1760 deg C
- Accuracy : +/-1% or 1 deg, Resolution : 0.1 to 1 deg

Coating Thickness

Dry Film Thickness – Digital

- Elcometer 456 Dry Film Coating Thickness (DFTG)
- Over 60 readings per minute. Also 311, 415, 355
- Separate and Miniature Probes available
- Accuracy : +/-1 to 2%, Range : 0 to 25 mm
- Download to PC : 40000 readings up to 999 batches
- Conforms to ISO and other International Standards

Dry Film Thickness - Destructive

- Elcometer 141 Paint Inspection Gauge (PIG), 121/3, 195 Saberg Drill, 126, 3240
- Used for non metallic substrates eg wood, plaster, plastic and for determination of multilayer coatings.
- Low cost conversion to Cross Hatch Tester
- Conforms to ISO and other International Standards

Dry Film Thickness – Mechanical

- Elcometer 211 Magnetic DFTG - Banana Gauge
- Ideal for hazardous and dangerous environments
- Can be used underwater
- Accuracy : +/-5%, Range : 0 to 1000 microns
- Conforms to ISO and other International Standards

Dry Film Thickness - Software

- NEW ElcoMaster software – user friendly, FREE
- Create professional reports in seconds
- For PC and Mobile use – customized reports for all applications
- EDCS Plus – Coatings Management Software

Dry Film Thickness – Standards

- Elcometer 995 Coated Thickness Standards
- Elcometer 990 Calibration Foils / Shims
- Conforms to ISO and NBS – working foils also avail.
- Accuracy : 1%, 2% or 3%, Range : 12 to 5000 mic
- Used in the laboratory and on site
- Ideal method for accurately calibrating your DFTG

Wet Film Thickness

- Elcometer 112, 115, 3236, 3238, 154, 3230
- Quick, easy method of measuring coating thickness
- Plastic, Aluminium or Stainless Steel Combs, Wheels
- 2 or 4 sided, 6 sided combs or high accuracy wheels
- Conforms to ISO. Range 25 to 3000 microns
- Also avail : Elcometer 155 Uncured Powder Comb

Concrete Testing

Concrete Covermeters

- Elcometer 331 BH, SH, TH, Kolectric 8020
- Rebar detection, orientation, depth, diameter
- Also potential for corrosion with new Half Cell
- Download readings to PC, Conforms to ISO
- Accuracy : +/-1mm, Range : 0 to 180 mm
- Borehole Tendon Duct available for multiple layers

Concrete Adhesion

- Elcometer 106/6 Adhesion Tester - specifically designed to measure Coatings on Concrete
- Special 50 mm diameter dollies
- Fully portable in foam lined Case – ideal for site tests
- Hand operated - no power supply required!
- Range : 0 to 3.5MPa

Concrete Hardness / Test Hammer

- Low Cost HT225A Concrete Compression Test Hammer / (Schmidt equivalent) – with certification
- Elcometer 181, 182 Digital Concrete Hardness Test
- Non destructive method of testing Concrete

Concrete Monitoring System / Concrete Moisture

- IQT-Meter Concrete Temperature Monitoring System
- Flexible and Economical method
- Moisture Meters: specifically for Concrete & Concrete Screeds. Measures in critical 0 to 6% moisture

Concrete Rebar Locators

- Elcometer P100, P120, Low Cost MT6
- Identify the location and orientation of the rebars
- Detection Depth : up to 152 cm
- Indication of Depth as well
- For Ferrous and Non Ferrous Metals

Concrete Ultrasonic Flaw Detection

- V-Meter, Vu-Con Concrete Ultrasonic Flaw Detector are advanced ultrasonic, pulse-velocity test system
- Identify non-homogeneous conditions such as voids, cracks, honeycombs and frozen concrete
- Conforms to ASTM C-597.

Coating Physical Test Equipment

Balances

- Elcometer 8720 KB Balance
- Low cost easy to use. Range 0 – 6100g
- Complete with 20 user programmable options
- Elcometer 8721 Analytical Balance
- Stable, robust balance with Metal Casing
- Range : 0 -220g

Drying Time Testers

- Elcometer 5500 Circular Ball Drying Time Recorder
- Elcometer 5300 Linear Drying Time Recorder
- Elcometer 5100 Payne Permeability Cups
- The drying time is evaluated from the condition of the trace, and measured with a template with time markings.

Film Application & Test Charts

- Elcometer 3520 Baker Film Applicators, 4360 Spiral Bar Coaters / Draw Down Bars
- Also Motorised with Vacuum Tables, Doctor Blade, Cube Film Applicator, Multiple Gap, with reservoirs
- Wide range of thicknesses and widths
- Leneta / Opacity Test Charts – full range available

Flash Point Determination

- Elcometer 6910 Setaflash Series 3 Closed Cup Test
- Offers the fastest and most accurate flash point test at a cost effective price.
- Elcometer 6910 Setaflash Series 3 Open Cup Test - similar to 6910/1 but allows user to determine flash
- Conforms to ISO and other International Standards

Paint Mixers

- Elcometer 7951 Minimix Paint Mixer very effective for mixing & blending pigments & additives in a coating.
- 5 litre capacity & overall size of 55 x 58 x 75cm
- Fast Shaker, Rotospin, Manual Gyroscopic and Full Automatic Clamping & Rotating Mixer – 20 litres
- Also Manual Paint Dispensers – 12 or 16 canisters

Ultrasonic Distance Meters

- Calculated 3300, Sonin 10045, Sonin 10075
- Accuracy: 99.5%, Range: 0 to 18m
- Computes areas and volumes, with Laser pointer
- Used by : Real Estate Agents / Brokers, Contractors / Builders, Interior Designers, Re-modelers, Estimators, Do-It-Yourselfers

Distance Measuring Wheels

- New Digital 5500E Measuremeter
- Large Easy to read Digital Display
- Range : 10000m, Accuracy : +/-1
- Push button reset, 3 Year Guarantee
- Other options and wheel sizes available

Glossmeters

- Rhopoint Novo Gloss Lite – 20, 60 deg small, low cost, easy to use, statistics & software, menu driven
- Rhopoint Novo Gloss Trio – new Triple Angle 20, 60, 85 deg easy to use gauge with statistics & software, menu driven, in excess of 15000 readings
- Conforms to ISO, BS, ASTM etc, 2 year guarantee

Shade / Reflectometer

- Rhopoint Novo-Shade Duo Reflectometer/ Opacity
- Measures shade and opacity with 45/0° geometry.
- Automatic calibration mode. 2 year warranty.
- Continuous-read feature for large surfaces
- Includes Novo-Soft™ for download to computer
- Conforms to ISO, ASTM, DIN & FTMS.

Density

- Elcometer 1800 Densimeter / Picnometer / Specific Gravity Cup
- Stainless steel or anodised aluminium precision instrument for determining the specific weight of paints and similar products. Optional Certificate.
- Conforms to ISO, ASTM, DIN, FTMS, NFT, NBNT

Elasticity & Resistance Deformation

- Elcometer 1510, 1500, 1506 Mandrel Bend Testers
- Elcometer 1620 Cupping Test
- Elcometer 1615 Variable Impact Testers
- Used for testing elasticity, adhesion, elongation & cracking of paint on sheet metal & impact resistance
- Conforms to ISO and other International Standards

Fineness of Grind Gauges

- Elcometer 2000 Muller, 2020, 2041 Hegman, North, PCU, NPIRI, Grindometer, Meier Gauge
- Used to determine particle size and fineness of grind of many materials, including: paints, pigments, inks, coatings, chocolates or other similar products
- Conforms to ISO and other International Standards

Hardness - Coatings

- Elcometer 3080, 511 Pencil Hardness Tester
- Elcometer 3086 Motorised Pencil Hardness tester
- Elcometer 3092 Sclerometer, 3000 Clemen
- Elcometer Persoz & Konig Pendulum Hardness
- All for testing Hardness & Scratch resistance
- Conforms to ISO and other International Standards

Washability, Brushability & Abrasion

- Elcometer 1720 Abrasion, Scrubbing, Washability Tester and 1730 Car Wash Simulator
- To test paint, lacquers, inks, coatings & much more
- Elcometer Taber 5700 Linear Abraser and 5135 & 5155 Abrasers – regarded as the industry standard
- Also 1700 Falling Sand Tester.
- Conforms to ISO and other International Standards

Distance

Laser Distance Meters

- Leica Disto Laser Distance : D2, D3, A5, A6, A8
- Accuracy: +/-1.5mm, Range: 0 to 60, 100 & 200m
- Measures heights using Pythagoras function
- A6 has Bluetooth technology for downloading to PC
- Shortcut keys for addition, subtraction, area, volume
- Minimum and maximum functions also incorporated

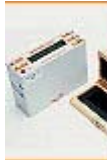

Plan / Map Measuring Wheels

- Scale Master Classic & II Plan / Map Measurer are Portable, Digital take-off tools- 72 / 91 Built-in Scales
- Scale Master II 6215 Plan / Map Measurer and optional Interface Kit for downloading to PC
- Construction Estimators, Contractors or anyone who works with Blueprints

Gloss & Appearance

Haze / Glossmeters

- Rhopoint Novo-Haze™ Haze Meters uses a second angle to differentiate betw. materials where one angle on a normal glossmeter gives comparable readings
- Materials can be separated by measuring at a second angle and comparing the two readings.
- Conforms to ISO and ASTM.

Colour

- Elcometer 6210 RAL Colour reference charts
- Elcometer 6300 Colour Cabinet view samples to maintain colour consistency and quality
- Elcometer 6060, 6075, 6070 Spectrophotometers give fast, precise, accurate colour measurement info
- Conforms to ISO and other International Standards

Hardness

Hardness of Metals

- TH130, TH134, TH154, TH170 Integrated Portable Hardness Testers are advanced hardness testers
- Very compact size, high accuracy, wide measuring range and simplicity of operation with Digital readout
- Suitable for testing the hardness of all metals and widely applied in many areas of industry.

Concrete Hardness / Test Hammer

- Low Cost HT225A Concrete Compression Test Hammer / (Schmidt equivalent) – with certification
- Elcometer 181 Mechanical Hardness Tester
- Elcometer 182 Digital Concrete Hardness Test with facility to download
- Non destructive method of testing Concrete

Hardness of Non Metals

- Elcometer 3101 Barcol Impressor Portable Hardness Tester – aluminium, copper, brass, plastic, fibre-glass
- Affri Shore A & D, TH200, TH210 Durometers / Hardness Testers for soft & hard rubber & plastic
- Digital or Analogue models to suite your application
- Conforms to ISO and other International Standards

Hardness - Coatings

- Elcometer 3080, 511 Pencil Hardness Tester
- Elcometer 3086 Motorised Pencil Hardness tester
- Elcometer 3092 Sclerometer - glass, 3000 Clemen
- Elcometer Persoz & Konig Pendulum Hardness
- All for testing Hardness & Scratch resistance
- Conforms to ISO and other International Standards

Inspectors Accessories

Coatings Defects Manuals / Publications

- Elcometer Fitz Atlas of Coating Defects - reference manual with over 180 colour photographs to help the site inspector identify coating failures.
- Elcometer Macaws Pipeline Defects Manual illustrates range of effects in high pressure steel pipelines and pipeline coatings

Magnifiers & Microscopes

- 139 Illuminated Pocket Microscope – 30 to 100x
- Elcometer 131 Inspection Mirrors, 137 Illuminated Magnifier, 7210 Pocket Microscope, 7220 Microscope with Reticules / Graduations, 900 Concrete Crack Microscope
- Various magnification and ranges

Fibrescopes / Interscopes/ Endoscopes

- Fibrescope Internal Inspection Tool / Internal Bore Viewer – diagnose & repair inaccessible problems
- Powerful halogen lamp, High powered lens
- Diameter: 6 / 10mm Length: 450, 900 up to 2230mm.
- 2 & 4 way articulating Fibrescope also available

Inspectors Accessories - Other

- Elcometer 132 Torch / Flashlight – Intrinsically safe
- Elcometer 143 Crack Width Ruler – simple low cost
- Elcometer Galvanising Calculator – convert thickness of zinc coating into weight per unit area
- Pocket Real Estate Master calculator – easy to use and low cost – ideal for Estate Agents

Laboratory Instruments

Minimum Film Forming Temperature Bar (MFFTB)

- Also called Temperature Gradient Bar
- Originally designed for paint industry
- Now has many other applications outside the paint industry where an accurate temperature gradient plate is required such as foods, cosmetics, confectionery, wrapping papers, adhesives, etc

Oven Temperature Logger

- Elcometer 215 Oven Temperature Data Recorder including Ideal Finish Oven Logger Software
- Easy to use, measure & record the oven temp profile
- Large display for easy menu-driven operation
- Displays result of every stored batch, incl Cure-index.
- Accuracy 1 °C, Resol 0.1°C, Range -50 to 1200 °C

Measuring Instruments

Anemometer

- 8901, 8910 Anemometer / Air Flow / Velocity / Air Speed Meter – Separate & Integral Vanes
- 8901 also temp, RH, dew point, alarm, air volume
- 8910 also Windchill, Altitude, Heat Index, Barometer
- Accuracy : 2 %, 0.6 deg C. Resolution : 0.01 ms, 0.1 deg C. Range : 0.4 to 35 ms, -10 to 50 deg C

Levels

- Digital Inclinometer 360° Angle Gauge Module measures Angles in Degrees or Slopes in %
- Various lengths from 250mm to 1 metre
- Portalevel Digital Liquid Level Indicator for single skinned metal cylinders eg fire-extinguishers, tanks
- Also Portamarine for Marine applications

Tachometer

- 8000 Non Contact and 8001 Contact Tachometer
- Simple and easy to use and read, low cost
- High accuracy & resolution & Auto Range Function
- Non-Sleep Mode & Hold Function.
- Range: 10 to 99999 Rpm Accuracy: 0.04% ±2dpts.s

Hand Tally Counter

- 4 digit electronic hand tally with a large LCD
- Add and subtract counts – unique feature
- Simple to operate, Low cost
- Backlight for low light conditions
- Button operated reset to zero

Sound Level Meter

- 8921, 8925 Digital Sound Level Meter
- Background noise absorber filters ambient sounds, min & max record RS232 option
- Auto or Manual ranging selectable.
- Fast (125 msec.) or Slow (1 sec.) response times.
- Range:30dB to 130dB Accuracy at 94 dB,1KHz:±2dB

Vibration

- TV110 Vibration Tester / Gauge / Meter / Analyzer – ideal low cost instrument - preventative maintenance
- TV200 and TV260 Portable Pen Type Vibration Tester – ideal for quick test of bearings and gears
- TV300 Portable Vibration Tester with full graphic LCD & Spectrum Analysis, 3 display modes, RS232 to PC

Metal Detection / Locators

Rebar Locators and Covermeters

- Elcometer 331, Kolectric 8020 Concrete CoverMeter
- Allows identification of : location, orientation, depth and diameter of rebar & the potential for corrosion
- Elcometer P130 Rebar and Wall Tie Locator
- Elcometer P100, P120 & P150 Rebar Locator
- Conforms to ISO and other International Standards

Industrial Metal Detectors

- Elcometer P500 Imp Box locator. Depth : 1 metre
- Elcometer P520 Deep Cover Metal Detector : 1.2m
- Elcometer P610 Timber Metal Detector: 33 to 61mm
- All simple to use and very rugged

Wall Tie and Stud Locators

- Elcometer P130 Wall Tie and Stud Locator
- Elcometer P150 Rebar and Wall Tie Locator
- MT6 Metal Locator / Detector finds nonferrous & ferrous metal. Depth : 152 mm & indication of depth
- MultiScanner Pro SL Stud Locator

Pipe and Cable Locator

- Subsite 250 Receiver & Transmitter Pipe & Cable Locator & Cable Avoidance Tool – up to 4.5m deep
- Subsite 950 R & T for tracing specific services
- Sondes / Beacons for Non Metallic Pipes
- Elcometer P700 Live Cable Locator (PaceTrace)

Building Materials

- Surveymaster Moisture Meter is a Digital dual mode unit - Search and Measure (Pins) options
- Moisture Encounter Plus Moisture Meter
- Range : From 5 to 30% actual Moisture %. 0 to 100% Relative Scale Depth: 20 & 30mm

General Purpose

- Popular Low Cost Mini 2000 Pin Moisture Meter
- Speedy Ashworth Calcium Carbide Moisture Meter
- Trident T-90 Moisture Meter for Aggregates / Sand
- Moisture Measurement System (MMS) Dampness Diagnosis Kit – Dual Mode with Hygrometer, RS232

Paper / Cardboard

- DM4A Moisture Meter - digital non destructive universal moisture meter for measuring moisture in
- Paper, cardboards, also wood, building materials
- Range: 0-50% (adjust.) Resol: 0.1%. Depth: 30mm
- Also RS232 Output to PC

Moisture

Wood

- MRH Digital Moisture Meter - Non-Destructive meter
- Adj. Specific Gravity 0.3 to 0.8 for most wood species
- Range : 3% to 40%. Resolution: 0.1%. Depth : 30mm
- Timbermaster Digital Mini Moisture Meter is a simple to use digital pin type moisture meter : 6 to 99.9%

Concrete

- Concrete Moisture Encounter (CME) specifically designed for flooring industry – no drilling required
- Range : 0 to over 6%.Depth : 12.5mm Electronically
- DM4A Moisture Meter digital non destructive meter
- CRH Moisture Content and RH Meter for Flooring

Agriculture

- Grainmaster "i" Moisture Meter - Grinder - repeatable
- Pre-programmed 15 crop calibrations, 2 yr warranty
- Accurate, fast, reliable, repeatable moisture readings
- Digital Balemaster Moisture Meter with probe

Pinhole / Porosity Detection

Sponge / Pinholes

- Elcometer 270 Pinhole Detector range
- High quality, low voltage detector with similar accessories to a high voltage spark tester.
- Accessories : sponge sizes, roller wands, telescopic
- Conforms to ISO, BS, EN, ASTM, NACE, RP

Spark / Holiday

- Elcometer 266 High Voltage Holiday Detector
- 3 ranges up to 30kV, extra safety features
- Accessories for various applications- rolling springs for external pipeline inspection, extension handle
- Conforms to ISO, ANSI, AS, ASTM, BS, JIS, NACE

Surface Preparation

Surface Profiles – Blasted / Machined

- Elcometer 123 Analogue Surface Profile Gauge
- NEW Elcometer 224 Digital Std, Top – download
- Elcometer 122 Testex Tape & 124 Dial Gauge
- Elcometer 125 Comparators, 119 Pipe Pit Gauge
- TR100 / 200 Portable Digital Machined Roughness
- Elcometer Rubert, Rugotest & Surfrest Roughness

Surface Cleanliness

- Soluble Salt Meter SSM – easy use, no consumables
- Elcometer 130 SCM400 Salt Contamination Meter
- Elcometer 138 Bresle Kit & Elco 135 Bresle Patches
- Elcometer 134 CSN- Chlorides, Sulphates & Nitrates
- Elcometer 128 Pictorial Surface Stds, Amine Blush
- Elcometer 142 ISO 8502-3 Dust Tape Test Kit

Ultrasonic Wall Thickness

Low Cost popular models

- TT100, TT130, 300 SA40 Ultrasonic Wall Thickness
- Popular hand held digital instruments to measure material thickness of materials from one side only
- Accuracy : +/-1%. Range : 0.8 to 225 mm. Resolution : +/-0.01mm, also RS232 capabilities
- High Temp probes available

Elcometer Range

- Elcometer 204, 205, 206 Ultrasonic Thickness Gauge
- The DL version can download readings to a PC
- Accuracy : +/-0.01mm. Range : 0.63 – 500mm. Resolution : +/-0.01mm.
- Elcometer 207 is ideal for thin materials
- Elcometer 208 for measuring through a coating

Viscosity and Consistency

Viscosity - Flow and Dip Cups

- Elcometer Viscosity Cups : Quick, easy, low cost way to measure consistency of paints, varnishes etc
- Ford 4 most popular, ISO, ASTM, FORD, FRIKMAR AFNOR, NFT, DIN, NF, EN, NBN, BS all available
- FRIKMAR, Zahn, Shell, Lory, Daniel Flow cups
- Viscosity Oils for calibration available

Rotational Viscometers

- Elcometer 2300 range of rotational viscometers
- For low to high velocity - Select speeds, Temp. probe
- Accurate, easy to use and reliable with quick connect spindles, also RS232 to ViscosityMaster™ software
- Krebs Stormer – automatically calculates viscosity
