

elcometer® **7400 Compact "A" Moisture Meter**

The measuring principle of the COMPACT "A" Moisture Meter is based on the dielectric constant or high frequency method.

The meter is simply placed on the material to be tested, the moisture content can be read off immediately. No need to drive pins into the wood.

- Handy, pinless wood moisture meter for fast measurements.
- No separate measuring electrodes or cables required.
- Fully automatic adjustment of the indicator.
- Setting device for automatic correction of the readings depending on the species of wood. Setting range: Positions 1 to 10.

Technical Specifications

Measuring Range	5 to 45 % moisture content, with digital LCD readout and wood species selector switch. Suitable for timber up to 40mm thick.
Dimensions	170 x 35 x 35mm
Weight	180g
Power supply	9 V dry cell or rechargeable battery
Part Number	K0007400M021
