

# iLine Auto-Leveling Laser Line Indicator

Turn iLine up, down, left, right – it automatically levels in all four directions.  
It's a simple and fast tool that gives you a bright laser plumb or level line.  
It fits in your hand or easily pins to a wall.

With iLine, users can shoot level or plumb laser "chalk lines" left, right, up or down with just a quarter-twist of the tool.

Using it is as simple as child's play. Just place it against the wall and point it in the direction where a line is needed.

iLine's patent-pending, internal, auto-leveling mechanism does the rest, ensuring the projected line is precisely plumb or level each and every time.

## Features

- Automatic level and plumb
- Use with a StudSensor™ to scan for studs along level line
- Laser chalk line generator for floor work and other horizontal applications
- Easy to pin to walls for hands-free use
- Convenient small size, light weight
- Patent-pending internal self-leveling assembly

## The iLine Advantages

- Simplicity—easy to use and understand
- No set-up. Open it and go.
- Level and plumb—no need for two separate tools
- Flexible—generates a precise line in all four directions (up, down, left, right)
- Accuracy— within +/- 1 cm per 9 m
- Hands-free design eases installation projects

## Applications

- Hang cabinets and shelves
- Hang pictures and mirrors
- Install molding, wainscotting, trim
- Install closet organizers and storage systems
- Hang wallpaper

## Technical Information

Dimensions	108 mm diameter x 38 mm high
Weight	326 g without battery
Battery Type	2 AAA (not included)
Accuracy	Typically +/- 1 cm per 9 m
Range	Visibility up to 9 metres
Laser	Type diode Wavelength 650 nm Power 5 mW Class IIIA
Operating Temperature	-7° to 43°C
Storage Temperature	-29° to 66°C
Humidity	80% RH (noncondensing)
Water Resistance	Splash and water resistant
