

# Leica DISTO X1 Laser Distance Meter

The robust laser measurement tool. For tough interior construction sites.

The Leica DISTO X1 is a highly reliable laser measurement tool for tough indoor construction site conditions. Its robust housing, made of rubber and glass-fiber reinforced plastic, is built to withstand drop tests from a height of 2 meters, ensuring durability and consistent accuracy. With IP65 protection, it works perfectly in dusty and wet conditions and can be cleaned under water with ease.

Effortlessly connect to the Leica DISTO Plan app using NFC for quick, hassle-free data transfer, visualization and documentation. By streamlining measurement tasks and data management, it increases efficiency and boosts professionalism on any project.

## Features

- Robust design – reliably measuring accuracy
- NFC – Simplified and streamlined connectivity
- Fast and reliable measurement performance

## Technical Specification

Typ. distance measuring accuracy (ISO 16331-1)	± 1.5 mm
Range (ISO 16331-1)	0.05 up to 100m
Measuring units	m, ft, in
X-Range Power Technology	yes
Distance in m	10, 50, 100 m
Ø of the laser dot in mm	6, 30, 60 mm
Display illumination	yes
Free software for Windows	yes
App for iOS and Android	yes
Wireless interface	Bluetooth® 6.0
Measurements per set of batteries	up to 7,000*
Service life of batteries	up to 14 h*
Batteries	type AAA 2 × 1.5 V
Protection class	IP65
2 m drop tested	yes
Dimensions	125 x 53.5 x 25.5 mm
Weight with batteries	129 g

\*Reduced when used with Bluetooth®

## Packing List

Leica DISTO X1 laser distance meter

Hand loop

Pouch

2 batteries type AAA 2 x 1.5 V

Safety instructions

Calibration Certificate Silver

Quick start with QR code linking to online manual

3 Years warranty card
