

# DakMaster™ Data Management Software

DakMaster is a fast, easy to use software for all your data management, reporting and quality assurance needs.

It's not just taking measurements but what you do with the collected data that matters. As inspectors can spend up to 30% of their working week producing reports, DakMaster saves time and money by producing professional bespoke reports in seconds - even when out on site.

## Features

- Easy to connect: using DakMaster's gauge wizard, connecting a gauge & downloading data (via Bluetooth or USB) is fast and easy
- Import existing reports: scan your existing report into DakMaster and drag & drop all your data where you want it, then simply save and print
- Export, print or send: export, print, .pdf or email directly from DakMaster at the click of a button
- Cloud: multi-site access through secure cloud computing
- Import and combine measurements via Bluetooth or USB from a full range of Dakota ultrasonic gauges, including Corrosion Thickness, Precision Thickness and Flaw Detectors
- No need to learn different software for different gauges, all Dakota products use the same expert platform
- Store data in a simple file tree, by project and by inspection type
- Easy on screen analysis with histograms, statistics, measurements, limits, notes, diagrams and photographs
- Export data direct to Microsoft Excel. csv. txt. Cqatk formats etc to save time and prevent keying in errors
- Generates reports instantly using standard or pre-designed templates in seconds. No need for data manipulation simply connect the gauge, download data and drag & drop

**Corrosion Thickness**

**Precision Thickness**

**Flaw Detectors**

It's not all about taking readings, it's what you do next that counts. Save up to 30% of your working week by producing professional inspection reports in seconds by using DakMaster Software.
